

Welcome to the ¡Viva la Vida! Center

REGISTRATION FORM

WELCOME TO THE ¡VIVA LA VIDA! CENTER

A place for natural, healthy and happy living...

...to offer children with cancer natural healing with all the Love and Respect they deserve.

Naturally regenerating the health of a child diagnosed with cancer is a real challenge and a true responsibility...

To achieve this goal, three elements are essential:

- **on the child's side** : a strong will to live, and sufficient vitality within himself to be able to rebuild his health
- **on the parents' side** : acceptance of the changes needed to move towards healing, a real motivation to learn the keys to natural health, the desire to discover a healthy life close to nature, the ability to be involved and to demonstrate goodwill and trust throughout the healing process
- **on the ¡Viva la Vida! Center's side** : the competence and know-how to initiate and accompany the natural healing process, and the ability to understand and explain the phenomena at work...

Accepting a child with cancer at the ¡ Viva la Vida ! Center is a three-step process, as outlined in this document. The aim is to fully understand the situation and to check whether the parents' expectations, the child's state of health and the ¡Viva la Vida ! Center's skills are compatible.

FIRST STEP

The first step is to send the following informations to Claire's e-mail address:

center.vivalavida@gmail.com

1. child's first name, date of birth and gender
2. child's character and particular characteristics
3. child's general state of health since birth
4. circumstances surrounding the onset of the child's cancer: any previous health problems, potential emotional shocks, etc.
5. events that led to the detection of the cancer (symptoms) and what has been done since the diagnosis
6. the child's current state of health and daily life
7. attach one or more photos taken before the illness
8. attach one or more recent photos

Please answer as precisely, concisely and explicitly as possible, and as authentically as possible, describing the facts as they are.

SECOND STEP

Once the questionnaire has been filled in, you will be offered an initial telephone appointment via Whatsapp with Claire, on the following number:

+591 67731993

Please take into account any time difference and availability. Claire is in Bolivia, in the La Paz time zone. She's likely to be available for calls between 4pm and 6pm Bolivian time, Monday to Saturday...

This first call is an exchange between adults, without the child, with at least the mother of the child with cancer, and if possible also the father. The aim of this telephone conversation is to answer any questions either of you may have. If necessary, Claire will ask additional questions about the child. You can ask any questions you still have about the ; Viva la Vida ! Center.

This is a first contact between adults to get to know each other from a distance and clear up any doubt, any shadow areas...

THIRD STEP

After the first telephone meeting between adults, a second meeting will be organized with the presence of the child with cancer. This will be a Whatsapp call, this time using video, at least part of the time...

The aim of this second call is for Claire to be able to see the child and feel his state of health, his potential vitality, his interests, his desire to live...

FINALLY

Once these three steps have been completed, you will be informed whether your child has been admitted to the ; Viva la Vida ! Center. If this is the case, we'll need to work together to set a date for your child's arrival at the Center.

In addition, in the document named STAY GUIDE, you will find all the practical details for a stay at the ; Viva la Vida ! Center, including money, means of transport, cell phone use, Center rules, things to bring with you... Here is the link :

<https://pangaialoveabundancia.org/en/stay-guide-at-the-viva-la-vida-center/>

If we've come this far, and you're about to come and stay at the ; Viva la Vida ! Center, it only remains for me to congratulate you on your courage in pursuing an alternative way of healing your child, and to wish you an excellent journey as we look forward to welcoming you and getting to know each other better very soon...

Remember that life is a mystery to be discovered, a gift to be appreciated, a source to be protected, an ally to be respected and a seed to be nurtured. Take good care of life to allow it to flourish and express its full potential. Listen to your heart, which will always guide you towards Light, Peace, Joy and Love.

See you soon...
